

Packaging for today's global marketplace

To Whom It May Concern:

Inmark, a container distribution company with five locations in the United States, has been shipping with ABC Logistics, Inc. since 2000. During this time we have used ABC Logistics, Inc. for inbound and outbound truckloads at our various locations.

We have found that they have been able to lower our overall operating cost with regards to carrier rates; fuel surcharges and increase the efficiency of service to our customers.

We would highly recommend their services.

Sincerely,

Mark Shelton.
